----------	---

Summary	I'm a passionate web developer and <u>B.Tech</u> IT student from Palani, Tamil Nadu, with a strong foundation in modern web technologies. My journey in technology is driven by curiosity and a commitment to building solutions that make a difference. Through my Infosys Springboard internship and academic projects, I've developed expertise in front-end development, responsive design, and clean coding practices. I'm particularly interested in AI-driven projects and their potential for social good.

Education	V.S.B Engineering College	B.TECH
	Information Technology	Karur, Tamil Nadu. • 2023-2027
	J R C Hr.Sec.School	10th - 12th
		Kothayam, Tamil Nadu. • 2021-2023

Experience	Infosys Springboard	Remote
	Intern	Dec, 2024
	Automated NSE Report Downloader: Developed a Python-based automation tool during my internship at Infosys Springboard to automatically download, extract, and organize daily stock market reports from the National Stock Exchange of India, reducing manual effort and improving data management efficiency.	
	codeAlpha	Remote
	Frontend Intern	Jan, 2026
	Advanced E-Commerce Website Development: Completed a Frontend Web Development internship at CodeAlpha, where I developed an advanced e-commerce website with responsive UI, product listing, filtering, cart functionality, and optimized user experience using modern frontend technologies.	

Projects	Smart Government Scheme Awareness & Deadline Filtration with multimedia Support System	Nov, 2025
	Developed a web-based platform that helps citizens identify suitable government schemes based on their personal and economic profile. The system filters schemes using eligibility criteria such as age, income, occupation, and category, and provides detailed information with application guidance. https://scheme-filter-site.netlify.app/	
	Portfolio	Dec, 2024
	Built a responsive personal portfolio using modern web technologies to showcase my skills, experience, and projects. Designed and developed UI/UX components, interactive sections (About, Experience, Skills, Contact), and integrated links to resume and professional profiles to enhance visibility and engagement https://ponraj-dr-portfolio.netlify.app/	
	E-Commerce site	Jan, 2026
	Built a responsive e-commerce website using AI-assisted development tools and customized the generated code to implement product listings, filtering functionality, shopping cart interface, and responsive UI components.	
	Tech Stack: HTML, CSS, JavaScript (add React / Bootstrap / Tailwind if used) Approach: AI-assisted code generation, debugging, customization, and optimization	

Skills	 Web Developer Web Developer HTML5 CSS3 JavaScript Responsive Design Git UI Development
	 Prompt Design Prompt Engineering Generative AI LLMs AI-Assisted Development Automation
	 Java Java Object-Oriented Programming (OOP)
	 MySQL Basics MySQL Basic CRUD Operations SQL Queries
Certifications	Programming In Java Nptel Completed a certification in Programming in Java, gaining knowledge of core Java concepts including Object-Oriented Programming (OOP), data types, control structures, arrays, exception handling, and basic problem-solving using Java.
	Software Testing Nptel Completed a certification in Software Testing, gaining knowledge of testing fundamentals including Black Box Testing, White Box Testing, Functional Testing, test case design, and defect reporting.
	Java Foundation Infosys Springboard Completed a certification in Java Foundation, covering core Java concepts such as data types, control structures, Object-Oriented Programming (OOP), arrays, methods, and basic problem-solving.
	Chatgpt for Everyone HCL-GUVI Completed a certification on ChatGPT for Everyone, gaining practical knowledge of AI fundamentals, prompt design, and effective use of generative AI tools for productivity and problem-solving.
	Internship 5.0 Infosys Springboard Successfully completed Internship 5.0, gaining practical exposure to real-world project development, teamwork, task execution, and industry-oriented problem-solving.
