PROFESSIONAL SUMMARY

A Final-year B.Tech Information Technology student with hands-on experience across web development (Node.js, Express, MongoDB, React, MYSQL) and AI integration (RAG pipelines, Groq API). Built and deployed multiple production-grade applications, including an AI-powered academic platform serving thousands of users and responsive web platforms for real-world use cases. Strong foundation in Java DSA and SQL, with proven ability to design, build, and ship end-to-end systems independently.

EDUCATION

B.Tech — Information Technology	V.S.B Engineering College, Karur	2023–2027	CGPA: 8.4
12 th	J R C Hr. Sec. School, Kothayam	2022–2023	82.3%

TECHNICAL SKILLS

Languages: Java (OOP, DSA), JavaScript

Database: MySQL, MongoDB

Web Technologies: Node.js, Express, React, REST APIs

AI / ML: RAG Pipelines, Groq API, Prompt Engineering, LLM Integration

Tools: Git, GitHub, VS Code, Netlify, Postman

PROJECTS

StudentVault — AI-Powered Academic Intelligence Platform | *Node.js, Express, MongoDB, Groq LLM, JWT/OTP*

- Built a role-based platform (Student, Staff, HOD, Admin) with AI-driven academic assistance using a RAG pipeline powered by Groq LLM.
- Implemented secure JWT/OTP authentication and role-based access control across four user roles.

Smart Government Scheme Awareness & Filtering System | *HTML, CSS, TypeScript* | Nov 2025 | [Live](#)

- Built a web platform that filters government welfare schemes based on the user's age, income, occupation, and category.
- Delivered personalized application guidance to help users identify and apply for schemes they are eligible for.

E-Commerce Website | *HTML, CSS, JavaScript, AI-Assisted Development* | Jan 2026

- Developed a responsive e-commerce site with product listings, filtering, and a shopping cart.
- Customized AI-generated code to optimize UX and overall site performance.

INTERNSHIP EXPERIENCE

MERN Stack Intern — CodeAlpha (Remote) | Jan 2026

- Developed a responsive e-commerce website with product listings, filtering, and shopping cart using modern frontend technologies.
- Used AI-assisted development tools for code generation, debugging, and optimization; delivered a production-ready codebase.

Software Development Intern — Infosys Springboard 5.0 (Remote) | Dec 2024

- Built an automation tool to auto-download, extract, and organize daily NSE stock market reports, reducing manual effort.

CERTIFICATIONS

- Programming in Java — NPTEL
- Software Testing — NPTEL
- Java Foundation — Infosys Springboard
- Gen AI Fluency -- Nasscom

ACHIEVEMENTS

- Built and presented KiranaLens, an AI-based credit underwriting tool, at TenzorX 2026 National Level Hackathon across multiple evaluation rounds.
- Designed and deployed StudentVault, a production-grade academic platform, for real college workflows at V.S.B Engineering College.
- Participated in the National Level IEEE Hackathon Finals at IIITM Gwalior, in the Web Technology domain.

SOFT SKILLS

Problem Solving • Teamwork • Communication • Time Management • Adaptability • Independent Ownership
